VALENTINE'S DAY ROMING Judge says verdict out in a month

By M. T. Quintana

IT MAY BE THE ROMANCE OF THE YEAR, but it's also a legal case that's drawing attention. The judge in the case, Judge Romeo C. Chua, is expected to deliver a verdict in a month.

The case involves a woman, Mary Anne, who claims that her husband, Romeo, is a violent man. She claims that he has been abusing her for years and that he has threatened to kill her. She claims that she has been living in fear of him and that she has been unable to work because of his abuse.

The judge is expected to deliver a verdict in a month. The case is expected to be a landmark case in the Philippines, as it is the first time that a woman has been granted a divorce on the grounds of domestic violence.

OPINION

Character flaws,
change from within

IT'S not the system, stupid!

For the past weeks, the longest running bet-beloved that is Philippine politics was the undisputed No. 1 show in all timing surveys. No mean feat for a tragedy-comedy as a dead chicken sits the slot. Some observers were hopeful, others despondent by the attack of the lightweight cast of historical "over-actors."

As plot segues into counter plot, a line was drawn in the sand. The scraps of civil society started to panic. Unhappily, with the attached generals and a few wobbler political sycophants. "Systemic breakdown!" they cried. Puller-out, as if on cue by the now all-too-familiar "Character change!" ("I love to Cha-cha in a park-theater's federal system with a 1 1/2 x 3-3")

Traps are quick to see the snake bite as they spin, pre-empt play to the gallery take the counter-plot as the oil and water that they are. In all this, brilliant and subtle, they conversely fail to question that we have been changing systems since 1942, with apparently very little or no success.

Perhaps, we should take some pointers from the great Manuel Luis Quezon, Jr. or about his birth-day. He hypothesized that certain character flaws similar to Filipinos, prevented them from finding "their destiny to occupy their place in the sun." He then forewarned to undertake the regeneration of the Filipino people through the formulation and adoption of a code of ethics and personal conduct akin to the ancient Japanese Code of Bushido. "Cast away prejudice and petty pride... because we could ill afford to suppress truth or to entertain our

shortcomings." He further declared that, "We lack earnestness. Face-saving is the dominant force at the continued sympathy of our existence. Our sense of righteousness is often dented by the desire for personal gain. Our sense of control is generally prompted by expediency rather than by principle. We show a failing in that superb courage which compels action because it is right, even at the cost of self-sacrifice. Our greatest fear is not to do nothing, but that of being caught doing wrongly. There are those among us who are apt to compromise with ethical principles and to regard truth as too incompatible with the pretense of self-deceit."

It is a revelation to realize that one of this Republic's founding fathers was an astute—albeit some—psychiatrist who, if he were around today, would have no problem finding a lucrative job among psychiatrists for politicians.

Should Mr. Q's words strike close to home or seem humorously familiar, you are quite likely going through an epiphany of sorts. It's not the system, stupid! We could be given a second chance in the Garden of Eden again, and we should still come it up and get the bark. We could have a tale and hear a fable: Texas occupying Malabon and will go through as Buhay.

If we are to truly change our world, we must first truly change from within.

—JOSE INRIQUIN J. YULO,

4/F C/ Tala & Sons Bldg.,

Passing Time c/o Don Bosco Road,

Malabon City

Statesmanship and impaired presidency

THE MANAGEMENT Association of the Philippines (MAP) asks our leaders to demonstrate statesmanship, which to us means acting in the interest of future generations of Filipinos.

We have a poor and growing population that must be fed, educated and integrated into our economy through jobs. We have an external environment that is difficult, made more acute with high oil prices. We face a potential fiscal crisis that has been exacerbated by the Supreme Court's recent issuance of a TRO (temporary restraining order). Corruption and criminality continue to plague our people. And the financial markets reflect the turmoil: the prices of Philippine stocks and bonds and the value of the peso have all dropped dramatically.

Given these challenges, the events of the past weeks have, in our view, seriously impaired the ability of the President to address these problems. The resignations of the most respected

members of her Cabinet have further disabled the presidency. The longer the President stays in office under a cloud of doubt and mistrust, the greater the damage to the economy. And the greater is our vulnerability to forces seeking extra-constitutional means to grab power.

We acknowledge that the President has achieved commendable progress in many of her programs. And to preserve her legacy, she must now act with statesmanship and relinquish the presidency to her constitutionally mandated successor.

With God's grace and guidance, we pray that she will do what is best for our country and its future.

—RAFAEL LL. REYES

10,000 ARMM multiple registrants warned

MANILA—The Philippine Army (PA) has warned 10,000 multiple registrants in the Autonomous Region in Muslim Mindanao (ARMM) to stop carrying arms by July 31, 2005.

The PA has issued a public notice to the residents of the ARMM, stating that the carrying of arms is a violation of the law and will result in severe penalties.

Ballet Manila's "Swan Lake" features New York silver medalist

THE 2007 International Ballet Competition in Moscow, Russia, was the first time a Filipino dancer has won a silver medal. The award was given to Ballet Manila's principal dancer, Rina Sison, for her performance in "Swan Lake." Sison, 24, is the first Filipino to win a silver medal in the competition, which is one of the most prestigious in the world.

She was the only Filipino to win a medal in the competition, which is one of the most prestigious in the world. Sison, 24, is the first Filipino to win a silver medal in the competition, which is one of the most prestigious in the world.

Savagely powerful . . .

It's a rare sight to see a Filipino dancer performing in a Western country. But Ballet Manila's principal dancer, Rina Sison, is no stranger to the stage. She has performed in many countries, including the United States, where she won a silver medal at the 2007 International Ballet Competition in Moscow, Russia.

Michael Victor Coo in standout concert

By Antonio C. Milla
Contributor

CELLIST Michael Victor Coo revealed marvelous facets of his artistry, exquisitely expressing warmth, intensity and dynamic power in his most recent concert at Pasig Museum with collaborative pianist Mary Anne Espina.

The concert was a standout. Coo produced fresh and ebullient tone from a confident, relaxed stance, secured by a thorough technical grounding. Above all, musicality was of the highest order; he showed a literate understanding of stylistic nuance over naive imitation.

Beyond playing the notes correctly with breathtaking rapidity, or etching dynamics starkly, "Loni," as Coo is fondly called, is a virtuoso in the truest sense of the word.

Technical brilliance merely serves as a vehicle for conveying a mature sense of musicality, which proceeds from a well-thought-of and stylistically correct reading of the pieces. Well-crafted phrases are etched from beginning to end.

His palette yields brilliant hues. His brand of playing definitely makes for a sublime listening. Truly, he knows his métier.

The program was excellent, made up of works of Boccherini, Beethoven, De Falla, Glazunov, Tchaikovsky and Abelardo.

From the exuberant tones he crafted in Boccherini's Sonata No. 6 in A Major, Loni was thoroughly appreciated as he moved on to his next pieces. Beethoven's Sonata in A Major, Op. 69 had a light, well-tempered appeal that revealed well-ruined phrasing.

He shifted his gear to romantic disposition of the next pieces, singing warmly in the selections from *Siete Canciones*, of De Falla. His fingers ran adeptly through the entire fingerboard in Tchaikovsky's *Pezzo Capriccioso*, Op. 62 and Glazunov's "Chant du menestrel."

Abelardo's "Cavatina" was rendered with utmost suaveness which retained its songlike simplicity. He did not indulge in melodrama, just plain, quiet singing.

Mary Anne Espina was in tight rapport, striking a workable tandem that made listening enjoyable. Her playing has improved immensely, showing much muscle in her tones.

A fast sight-reader, there is no way for her but to continually shine more. Eventually her tones would achieve much finesse to spell out a more relaxed touch with full dynamic depth.

The concert was the final offering of the 4th Pasig Summer Music Festival presented by Music News and Posture. Former Pasig City vice mayor Lorna Bernardo graced the occasion. She was the moving force behind the festival which started some years ago, said Pablo Tariman, who hosted the concert.

Alegría Ferrer

Kudos to Alegría Ferrer, whose singing career is in full bloom, after she had bagged the Aliw Award as best female classical performer last year.

She stunned listeners with her moving rendition of Peliccano's "Locura Aria" from the opera "La Loba Negra" at the CCP last November. This feat was followed by her engagement with the PPO concert in December as a soloist of Bach's "Magnificat in D Major."

Singing in the *bel canto* style, she became the darling of opera-lovers in her magnificent portrayal of Euridice in Gluck's "Orpheus and Euridice," staged at Abelardo Hall in UP Diliman in March.

Twice, she sang in Japan, which were both well-received. She graced the celebration of the 21st International Philippine Festival in Nagoya, held in connection with the recent celebration of the 107th Philippine Independence.

She went back to Japan on July 14 and sang at the World Expo at Aichi before the commissioners and generals and pavilion directors. Both engagements received critical acclaim. Our warmest congratulations!

ALEGRÍA Ferrer

"QUADRILLE" pianists Neal Sardon, Mary Ann Aronovitz, Della Bena and Amara de Gonsens play for a cause on Aug. 4, 7:30 p.m. at the Francisco Santiago Hall, Equitable PCI Hall, Dela Costa St., Makati. The concert is sponsored by the MCO Foundation, the Equitable Bank and the Philippine Charity Sweepstakes Office.

Another eventful homecoming for Filipino tenor

Geography
Immigrants
have always
been before
in other
political
upheaval
